The Committee discussed the format of chapters received to date and noted that they were not at all what was expected. The chapters were too long, narrative intense and not graphically oriented. They preferred chapters that were understandable and conversational and not so fact-driven and academic. These comments as well as specific suggestions will be conveyed to VHB.

Discuss Housing Chapter 3 and Climate Change Chapter 9

The Committee pointed out a number of changes. The draft will be modified to include their comments and sent to the consultants for revision.
